NUMBER 188.

THEY TALKED IT OVER.

Allen W. Thurman a Vice Presidential Possibility.

PARTY LIGHTS AT CHICAGO.

Conference Between Colonel Bryan and Democratic Leaders, Including the Ohioan, Sets Political Gossips' Tongues a-Wagging.

Chicago, July 3.—A conference was held here Sunday between William Jennings Bryan, a number of Illinois Democratic leaders, including M. F. Dunlap, candidate for state treasurer during the last campaign; ex-Congressman Hienrichson and Judge Thompson of Jacksonville, all of whom were instrumental in swinging the Illinois delegation to Bryan in the last Democratic national convention. Allen W. Thurman and R. M. Ditty of Columbus were also present.

Mr. Bryan arrived in Chicago on his way from Aberdeen, N. D., to Barnesville, Ga., where he delivers an address July 4. He was met here by Mr. Thurman and Mr. Ditty, who had come from Columbus for the purpose. At the conclusion of dinner a conference was held, which lasted the greater part of the afternoon. None of the local Democratic leaders were present. Mr. Bryan denied there was any political significance in the meeting.

Samuel B. Cook of the ways and means committee states that the national political situation was discussed in a general way. The presence of Mr. Thurman, who was prominently mentioned as a vice presidential possibility prior to the last campaign, caused comment among local party leaders, particularly as the next meeting of the Democratic national committee will be held in this city July 20.

In an interview Mr. Bryan said: "I believe George Washington was right. We ought not to enter into entangling alliances with foreign nations. The question of an Anglo-Saxon alliance is involved in the question of imperialism. No entangling alliance would be suggested were it not for the fact that a colonial policy would strengthen those who desire a foreign alliance."

Smith Answers Critics.

Washington, July 3.—In response to a request for an interview on the Philippines situation, Postmaster General Charles Emory Smith said: "The situation in the Philippines is the most important and absorbing public question just at present. I am well aware that there is some restlessness on the matter, and in some quarters no little impatience. There is a notion that the administration should have been more energetic, and when the Filipinos prolonged their warfare should have called for and sent forward more troops. But those who make this criticism do not know that the administration has recruited nearly 2,000 men a week right along since congress adjourned on March 6. They do not know that with these recruits and with the enlistments a force of nearly 40,000 men has been raised within that time. They do not know that the army bill, which passed on March 2, practically compelled the reorganization of a new army nearly a fourth as large as that which was raised for the Spanish war."

Weds an American Girl.

London, July 3.—Lewis-Vernon Harcourt, eldest son of Sir William Vernon Harcourt, and Miss Mary Ethel Burns, daughter of the late Walter Burns of New York, for many years head of the banking house of J. S. Morgan and Company in this city, were married at St. Margaret's church, Westminster. The bishop of Winchester, Right Rev. Randall Thomas Davidson officiated. The wedding party included Mr. Joseph Choate, the United States ambassador, and Mrs. Choate, Mr. Henry White, secretary of the United States embassy, and Miss White.

Otis at the Capital.

Washington, July 3.—General Harrison Gray Otis of California, who saw considerable active duty in the Philippines, is in Washington. His visit to the east is entirely on private business, and the general said he has connection whatever, directly or indirectly, with Philippines affairs.

Mrs. McKinley's Condition.

Washington, July 3.—Mrs. McKinley was reported to be better. The pleasant weather is having a beneficent effect on her.

KENTUCKY REPUBLICANS.

General Taylor in the Lead For gubernatorial Nomination.

Frankfort, Ky., July 3.—At the county conventions in Kentucky during the past week the delegates have been selected to the Republican state convention at Lexington next week. It is estimated by the friends of Attorney General W. S. Taylor that the preferences for the nomination for governor are as follows: Taylor, 89½; Co. one, Stone, 22½; Judge Pratt, 104; uninducted delegates 82; necessary to choice, 652. The anti-Taylor men say many in the Taylor list are not instructed delegates, but that their county meetings simply indorsed Taylor before any other candidates were out. The indications are that it will be Taylor against the field, with the odds in favor of Taylor.

Laborers Organize.

Chicago, July 3.—There will be no general strike of packing-house employees at present. At a mass meeting of discontented laborers the opinion prevailed that the interests of the men would be best conserved by waiting until an organization could be perfected of sufficient strength to carry to a successful conclusion any movement undertaken. An organization was formed, and over 500 men became members. The avowed purpose of the union is to fight the packers.

Close of the Saengerfest.

Cincinnati, July 3.—The volkfest that followed the saengerfest closed after midnight at the Zoological gardens. The attendance was a record-breaker. The concerts began at 10 a. m. with dancing and gymnastics by the turners. In the afternoon there were bands in all parts of the gardens and singing by the visiting and local societies. There were acres of seats and benches covered by canvas in what was known as "The Brewery section."

After Streetcar Lines.

St. Louis, Mo., July 3.—The Standard Oil company, it is said, has designs on the street railway lines in the cities of the west. Among the properties on which, it is said, it has set its eyes are those in St. Louis, Omaha, Kansas City, St. Paul and Minneapolis. An engineering expert of the company has been looking over lines in these cities.

Yellow Fever Spreading.

Santiago de Cuba, July 3.—Fifteen new cases of yellow fever have been reported. This raises the total number of cases to 74. No deaths. The United States troops have all been removed from the infected camp, but the doctors seem unable to check the progress of the disease among them.

Railway Resignation.

Roanoke, Va., July 3.—J. M. Barr, vice president and general manager of the Norfolk and Western Railroad company, has tendered his resignation, to take effect July 15. Mr. Barr will accept a position with a western road. L. E. Johnson, present general superintendent, will succeed Mr. Barr.

Discussing Dreyfus.

Marseilles, July 3.—There were slight disturbances here growing out of discussions regarding the Dreyfus affair. The police made several arrests.

TITLES FOR SUPPORT.

Royalist Party Being Secretly Formed In Cuba.

MANY NIBBLE AT THE BAIT.

Leader in the Movement Predicts Success, as the Latin Race Prefers a Monarchy and the Possible Honors Accruing.

Havana, July 3.—La Lucha publishes a statement regarding matters which its conductors say they have been investigating and carefully guarding for several weeks, owing to the reticence of those concerned and the desire of the latter to avoid a premature disclosure, leading to a possible failure of their plans. The paper will say:

"Cuba during the last few months has been a land of many surprises. The latest is the establishment of a Royalist party. A well-known Cuban general, who claims to be a descendant of Charlemagne, is reported to be the head of the party. The Cuban general in question is said to be dissatisfied with American rule. He thinks that what Cuba needs is a republic, but a strong hand at the helm like his own. He is of the opinion that the people of the Latin race prefer royalty and the possible honors accruing under a monarchical regime.

"According to such other reports of this bombastic scheme as have leaked out the promoter has represented that he will persuade a majority of the alcaldes to give the movement their support by promising to make them dukes, counts and barons. It is also in the plans to form a Cuban legion of honor."

The theory is that it would be particularly acceptable to such families as already have titles from the crown of Spain and to Spaniards residing in Cuba, who, owing to business or other considerations, have been compelled to forfeit their patents of nobility. The promoters of the movement allege that they expect financial assistance from these sources, as the plan promises to substitute equal dignities and positions for those that have been forfeited.

Mutiny on Board a Cruiser.

Philadelphia, July 3.—A mutiny developed on the cruiser Panther, now at League Island navy yard, while on her way from San Juan, Porto Rico, to this port. It was necessary to place 24 men in irons. While the Panther was at San Juan, it is said, the greater portion of her crew rebelled against the food, and asked to be transferred. Several desertions occurred. On the voyage home it became necessary to place a number of the crew in confinement, although there was no open or violent breach of discipline manifested. It is stated that the insubordination has been reported to the navy department at Washington.

Troops in Control.

Cartersville, Ill., July 3.—Had it not been for the militia patrolling the streets strangers would hardly guess that the little city was in the midst of a struggle between capital and labor. Both sides in the trouble between union miners and the nonunion men lay on their arms, and there were no disturbance. The presence of troops quieted matters and allayed fears of riotous outbreaks.

Thirty Injured.

Madrid, July 3.—Advices from Seville and Saragossa report all quiet there, but the precautionary measures are continued. There has been a slight disturbance in Constantina in the province of Seville. At Badalona, about six miles northeast of Barcelona, more than 30 persons were injured during rioting, some fatally.

The Weather.

For Kentucky and West Virginia—Increasing cloudiness and cooler; variable winds, becoming southerly.

RIOTING IN SPAIN.

Famous Clashes Occur Between the Populace and the Troops.

Valencia, Spain, July 3.—Serious disturbances are in progress here. Under the orders of the captain general of Valencia, General Molto, the troops occupied the streets, and now hold all the strategic points.

At the beginning of the riots the mob placed obstacles on the street railway tracks and stopped the cars, stoning the gendarmes when they tried to remove the barriers. Finally the troops charged, and the first shots were fired. One person was killed and several wounded. Troops were stationed at many points, and the artillery was held in readiness. The rioters thereupon erected barricades, which the cavalry captured only after fierce fighting, in which many were wounded. An enormous number of arrests have been made. It is not known how many have been wounded.

Good Record For New Seale.

Pittsburg, July 3.—The new scale year of the Amalgamated association of Iron and Steelworkers began with a better record for the union than has been made for more than a half dozen years. Nine individual firms and the representatives of the American Hoop company, Republic Iron and Steel company and the Iron and Steel Sheet Manufacturers' association have signed the scale so far and a number of other signatures are expected before the day closes. Of the nine individual firms signing, five have been running nonunion for a number of years, one had been idle for seven years, resuming late in the winter, one is a new mill and another has never been anything else than a union mill.

Anniversary of San Juan.

Cincinnati, July 3.—The anniversary of the battle of San Juan was celebrated at Fort Thomas with imposing ceremonies. The citizens of Cincinnati, Covington, Newport and vicinity have placed on one side of the stone water tower at Fort Thomas a fine tablet in honor of Egbert and on the other side a rich tablet in memory of other fallen heroes of the Sixth infantry. These tablets were unveiled before a multitude of people with addresses by General Nelson A. Miles, Senator Foraker and others. Miss Wetherill, a daughter of the Captain Wetherill, and Miss Mason, a niece of the late Lieutenant Ord, unveiled the tablets amid the national salute.

Revoked the Order.

Washington, July 3.—Secretary Alger revoked that portion of the order of the assistant secretary of war relating to the proposals for certain ordinance which directed that the award to the Briggs-Seabury Gun and Ammunition company be annulled, and that new bids be invited. The contract for 20 6-pounders and 80 1-pounder rapid fire guns, mounts and ammunition, will therefore be retained by the Briggs-Seabury company. That portion of the order which imposes the penalties for delay under their present contract for \$700,000 was approved.

New Incorporations.

Columbus, O., July 3.—North Dayton Aid and Benevolent association, Dayton; the Enterprise association, Cincinnati; the Standard Boiler and Bridge company, Bellaire, amendment enlarging purposes; the Building Fund association of Donnell's Creek Council, Jr. O. Kautz's Final Report.

Washington, July 3.—Admiral Kautz has submitted to the navy department his final report of his actions while at Apia on the Philadelphia. He has little to say about the political troubles there, but makes his report of a routine character, touching upon events already more fully described.

Reciprocity Treaty.

Washington, July 3.—A reciprocity treaty with Jamaica was concluded at the state department at a conference between Commissioner Kasson in behalf of the United States and Mr. Tower, the British charge d' affaires. The Jamaican treaty is now to be forwarded to Kingston.

Washington, July 3.—Fire, which is thought to have been of incendiary origin, totally destroyed the large planing mill, lumber sheds and nearly all the lumber in stock of Thomas W. Smith's yard. Loss \$50,000.

AMERICAN PROTECTION

Desired by the Natives of the Southern Philippines.

WHAT A TOUR DEVELOPED.

Once Convince the Inhabitants That Aguinaldo Can Be Beaten, and Diplomacy Will Do the Rest. Missionaries Curbed.

Manilla, July 3.—Professor J. G. Schurman of the United States advisory commission for the Philippines returned to Manilla from a three weeks' tour of the southern islands.

He takes an entirely hopeful view of the general conditions there. The intelligent and substantial citizens desire an American protectorate. The masses are awaiting the settlement of the war in the island of Luzon before declaring themselves. They are chiefly anxious to be undisturbed. The president of the town of Santo Nicolas, in the island of Cebu, said to Mr. Schurman: "We want peace, food and prosperity. We do not wish to fight. We would be neutral."

The president of the commission thinks this declaration fairly expresses the sentiments of the people in the southern islands of the archipelago. Many of the towns there are in the hands of small bands of Tagalos, and the people fear to indorse American rule until they are certain that Aguinaldo must be beaten. Let them once be convinced of this and the allegiance of the southern islands, Mr. Schurman thinks, can be secured by diplomacy.

Almost every steamer brings missionaries. The arrival of one in Cebu made no little trouble, as the report spread rapidly among the ignorant classes that the Americans intended to compel them to give up their churches. The American authorities requested him to withdraw and he complied.

Senor Lorente, who is considered the most influential native in Cebu, said to Mr. Schurman: "I like the American idea of separation of church and state, but I think it would be unwise to introduce protestantism while conditions are so unsettled."

The rain has fallen almost continuously for nine days. It has been a tremendous downpour, and the whole country is flooded. The trenches at San Fernando are ditches of water, and the mud is knee deep in the temporary camps at several of the outlying towns.

Volunteers Leave Manila.

Washington, July 3.—The Nebraska, Pennsylvania and Utah troops, which have been on duty in the Philippines, have started on their homeward journey. A dispatch from General Otis on the subject was received by the war department.

BANK ROBBERS

Killed In Their Attempt to Loot an Illinois Concern.

Joliet, Ill., July 3.—A bold attempt to loot the First National bank at Wilmington, Ill., was made at an early hour. Five robbers were concerned in the raid. They had effected an entrance to the bank, when Cashier James Whitten, who lives opposite, was aroused. He went to investigate and the robbers on watch ordered him back. Whitten returned to his house and securing a rifle opened fire. The robbers returned the fire, and then fled. No one was hurt. The vaults of the bank contained between \$60,000 and \$70,000.

Rollinger Convicted.

Chicago, July 3.—The jury in the case of Michael Emil Rollinger, the Milwaukee avenue restaurant keeper, who was charged with murdering and attempting to cremate his wife by placing her body in a closet and then setting fire to his house, brought in a verdict. The verdict found Rollinger guilty as charged, and recommended that the death penalty be inflicted. This was Rollinger's second trial, the jury in the first case having failed to agree.

Buffalo, July 3.—A variety of subjects, which had been discussed in caucus, were presented at the session of the national social and political conference. There was a preliminary talk on "Is a New Party Needed?" in the course of which Joseph R. Buchanan, chairman of the press committee, further explained his referendum reform plan.

INDICATIONS.—Fair to-day; increasing cloudiness and cooler Tuesday; variable winds, becoming southerly.

BROAD tires are road makers, narrow tires road destroyers.

FARMERS should abandon all narrow-tired vehicles for heavy hauling. The free pikes have to be kept up by taxation, and broad tires will go far towards lessening road expenses.

THERE is every indication of a lively row in the President's official family. Alger is evidently seeking a good opportunity to get out and is stirring up the Cabinet by his talk. His most serious offense seems to be his denunciation of trusts.

It is given out that there will be no special session of the Legislature to pass measures for the suppression of the Clay County feud or to abolish the Goebel election bill. Governor Bradley believes the Democrats would not co-operate with him either in a fight on the feudists or the repeal of the Goebel law, as the recently adopted state platform pronounced positively against his administration. Besides, the Governor would no doubt much rather see Mr. Goebel elected than Mr. Taylor.

REPUBLICANS AND THE TRUSTS.

"The people will hardly be fooled into a belief that a campaign run on trust money is aimed at trust disaster and destruction," remarks The Verdict referring to a statement that the Republicans would declare against the combines. "The Republicans, by adopting an anti-trust plank, but confess the importance of the issue, while cheating no one. It will stiffen Democracy and send it recruits. Hanna is all there is to the Republican party. All others are but stokers, oilers, roustabouts and deck hands; all save McKinley, who goes on the books as cub and cabin-boy to Hanna. Hanna is the captain, and as he limps up the gang-plank to go rheumatically to Europe, he speaks as follows of that arch fiend of all the trusts, the Standard Oil, which a Republican Attorney General just now accuses of attempting to bribe him with \$400,000. Hanna says:

"It is a public benefactor. The Standard Oil Company has done more for the State of Ohio than any other corporation doing business within its borders.

"No, forsooth. What with Griggs and Hanna and Hobart and Havemeyer and Armour and Rockefeller and Carnegie and Frick and Cramp, and every last blood sucker of them a 32nd degree Republican, the party will hardly escape popular conviction as the guardian and sponsor for the trusts. Peculiarly, since Havemeyer himself swears that protection—that pet tenet of Republicanism—is the true 'mother of all trusts.' Parties, like men, may be known by the company they keep. While all Republicans aren't trust thieves, sure it is that all trust thieves are Republicans."

The Guffy Family.
[Blue Grass Clipper.]

The Guffy family seems to be strictly in it in the matter of offices in this State. Judge Guffy, the father, is Judge of the Court of Appeals; E. D. Guffy, the eldest son, is Deputy Surveyor of the Port; Leander Guffy is Tipstaff of the Court of Appeals, and Miss Nora Guffy is law clerk and stenographer to the court. The only Guffy not drawing a salary is Speed Guffy. He is a Democrat, while the rest are Republicans.

IN RUINS.

The Ohio Valley Pulley Works Burned to the Ground Saturday Evening.

Loss of About \$40,000, With Only \$13,000 Insurance—A Disastrous Fire.

The Ohio Valley Pulley Works, which had this season become one of Maysville's busiest and most prosperous industrial enterprises, is a mass of ruins to-day.

About 7:30 o'clock last Saturday evening the building caught fire from the boiler-room, and the flames swept through it with startling rapidity.

The factory was situated about fifty yards south of Forest avenue and just west of the old Maysville race course. The nearest water plug on Forest avenue was 1,000 feet away, and the fire department found it necessary to attach the hose to plugs on Central avenue, or Third street, and carry them across the lots to the burning building. Under the circumstances it was practically impossible to save the building.

Mr. Glenn, the night watchman, was on the second floor sweeping out. The shavings and trash are carried to the boiler-room by means of a chute, and it was in these shavings the fire started. When Mr. Glenn discovered it the blaze was only a few feet high. He had to run to another part of the building to get a bucket of water. By the time he returned the flames had spread so rapidly that all his efforts could avail but little. In the meantime the alarm had been given. As is generally the case the people most all rushed to the fire and a half dozen men and boys had to tug along with the hose carriages. That at least was true of some of the companies.

The Limestones reached the scene first, and connected with the nearest plug on Forest avenue. The company has only 600 feet of hose, and it was necessary after all this work was done to disconnect and carry the hose to the plug on Central avenue.

Before any water was thrown, the building had collapsed and was a seething mass of fire. All that is left of the structure are the brick walls of the boiler and engine rooms, and the bent and twisted machinery scattered about in confusion where it had fallen when the floors collapsed. Every one of the many fine machines was ruined.

Several piles of fine lumber south of the building were saved in a damaged condition.

Fortunately the wind was not blowing at the time. If it had been, many of the surrounding buildings would have been destroyed also. As it was only two were much damaged. These are just east of the burned building and belong to Henry Bailey and Henry Stevens, both colored. The Bailey cottage was badly damaged.

The loss on the pulley factory is placed at \$40,000, and the company only had \$13,000 insurance. The company had for some time been compelled to work at a disadvantage by reason of litigation. Other companies had sought to enjoin the local company from manufacturing the Sprinkle split pulley, but the Maysville company had won four of these suits only recently, and was enjoying a fine trade.

Seventy-five hands were employed in the factory and the concern had sufficient orders booked to keep works busy for several months. One order amounting to several thousand dollars had just been completed and the pulleys were ready for shipment.

The insurance is in the following agencies:

Parker & Boulden,—\$1,000 in the Aetna, \$2,000 in the Phoenix of Hartford and \$1,000 in Philadelphia Underwriters.

Dr. John T. Fleming,—\$1,000 each in the London and Liverpool and Globe, North British and Mercantile, German American, and Phenix of Brooklyn.

J. C. Everett,—\$1,000 each in the Orient and Lancashire.

W. R. Warder,—\$1,000 in the Home of New York.

F. P. O'Donnell,—\$1,000 in the Traders'.

D. M. Runyon—\$1,000 in the Insurance Company of North America.

All the insurance is on the building and contents, except the Aetna policy of \$1,000, which is on the lumber.

Mr. Runyon's policy was issued only last Saturday.

The company is capitalized at \$50,000, and the stockholders are Messrs. E. P. Browning, Thos. A. Keith, J. W. Fitzgerald, W. W. Ball, J. D. Peed and D. A. Sprinkle.

The company had not decided this morning whether the factory would be rebuilt or not, but the probability is that it will be rebuilt at once, as the company has of late been doing a very profitable business and has enough orders on hand to keep the factory running several months.

GEORGETOWN (O.) News Democrat: "James Hamer, a former resident of Brown County, and father of Lou C. Hamer, married to a Miss Stallcup, of Ripley, and who resided at Ripley for several years, was taken to the Betts Street Hospital at Cincinnati last week to undergo an amputation of the right leg. The leg is troubled with a tumorous growth on the right knee and the operation is thought to be the only means of saving his life. He will be put in readiness for the operation which is to be undertaken when he is thought to be prepared. Mr. Hamer is seventy-three years of age and it is doubtful if he survives the shock."

Trust Power in Elections.

[St. Louis Republic.]

Proof accumulates daily that combines, organized to destroy competition in the field of transportation, production or manufacture, are as surely placing their tools in the seats of legislative and judiciary power as they are using the leverage of vast wealth to crush trade rivals and competitors. Whenever an election occurs whose outcome may affect the interests of these combines their instruments and their money are in evidence, working to place in power men friendly to their plans and purposes. Herein lies the menace of trusts and their assistant corporations.

Electric Park BIG SHOW

WEEK JULY 3.

ADMISSION 10 CENTS, INCLUDING CAR FARE

Electric Park.

The re-opening of Electric Park takes place this evening with a grand high class vaudeville entertainment. This show is recommended by the management as first class. Go out to-night and enjoy it. There are four people this week and they are as good as money can procure, namely, Mr. and Mrs. Neil Litchfield in their comedy sketch, "Down on the Farm," which is a dream of rustic life and was the biggest hit on the best circuit of parks; "Lorraine and Howell" in their comedy acrobatic sketch, which is full of good comedy, singing, grotesque dancing and eccentric balancing. Mrs. Howell is a wonderful clog dancer. They also have the educated dogs "Duke" and "Jo-Jo." In all, six big acts will be presented, so make your arrangements to go. Admission is only 10 cents, including round trip car fare. Reserved seats and admission tickets on sale at Nelson's.

Only 25c. per box. Sold by J. J. Wood & Son.

At the request of Hon. Thornton F. Marshall, Hon. William Goebel, Democratic candidate for Governor, will be in Augusta to-morrow, and will meet and mingle with the citizens of Bracken County during the Fourth of July celebration. Thousands are expected to be on hand to meet and hear him.

Enquirer: "The work on Captain Val P. Collins' new salt works at Pomeroy is progressing finely. Captain Collins is home after a business trip up the Kanawha and in the Pomeroy bends. He's a hustler from away back, and a native of the "dark and bloody ground," made noted by the daring and energy of Daniel Boone, Simon Kenton and their pioneer associates of Kentucky. Captain Collins has not, however, been as successful in making artificial ice as he has been in raising a crop of Job's comforters."

Paying the Piper.

[New York World.]

The Treasury experts reckon that the new internal revenue taxes levied to meet the cost of the war will yield about \$100,000,000 during the next fiscal year. And it will require every dollar of this revenue added to regular receipts, to carry the country through the year without a deficit.

That is to say, although the war with Spain ended nearly a year ago, Mr. McKinley's war in the Philippines will cost us \$100,000,000 a year for an indefinite time to come. And every dollar of this money must be taken out of the hard earnings of the American people.

A Thousand Tongues
Could not express the rapture of Annie E. Springer, of 1125 Howard street, Philadelphia, Pa., when she found that Dr. King's New Discovery for Consumption had cured her of a hacking cough that for many years had made life a burden. All other remedies and doctors could give her no help, but she says of this royal cure: "It soon removed the pain in my chest and I now can sleep soundly, something I can scarcely remember doing before. I feel like sounding its praises throughout the universe." So will every one who tries Dr. King's New Discovery for any trouble of the throat, chest or lungs. Price 50c. and \$1. Over a Card Game.
Elmwood, Neb., July 3.—In a shooting affray at this place one man was killed and two others seriously injured. The participants were engaged in a game of cards. A dispute arose and William Harris drew a revolver and began shooting indiscriminately at his companions. The first shot killed George Jones of St. Joseph, Mo.

Serious Railway Wreck.
London, July 3.—Many people were injured in a railway accident at Worsford, in Cheshire, just before midnight. A freight train on a siding overshot the buffers and left the rails. Another freight train collided with the wreckage and caused a partial fall of a railway bridge. Then a crowded excursion train ran into the others. Upwards of 50 cars were wrecked.

Last of the Negroes Leave.
Pana, Ills., July 3.—The last of the negro colony of fully 1,000 persons, brought here by the operators during the past 10 months to supplant union men, departed on tickets furnished them by Governor Tanner. All mines are silent and the operators claim pits have been closed indefinitely.

Fatal Fight.
Toledo, July 3.—William Paul, James Collins and Meinert Lewis, colored, with Ida Pratt, white woman, got into a fight with Fred Lawson and wife while the entire party was in rowboats on the Maumee river. Lawson tipped over one of the boats and Meinert Lewis was drowned.

Fired by Incendiaries.
Valparaiso, Ill., July 3.—The naval arsenal at Talcabunao, about eight miles northwest of Concepcion, was burned to the ground. The loss is more than \$50,000. It is suspected that the fire was the work of an incendiary, with a view of covering defalcations by government officials.

No Right to Ugliness.
The woman who is lovely in face, form and temper will always have friends, but one who would be attractive must keep her health. If she is weak, sickly and all run down, she will be nervous and irritable. If she has constipation or kidney trouble, her impure blood will cause pimples, blotches, skin eruptions and a wretched complexion. Electric Bitters is the best medicine in the world to regulate the stomach, liver and kidneys and to purify the blood. It gives strong nerves, bright eyes, smooth, velvety skin, rich complexion. It will make a good-looking, charming woman of a run-down invalid. Only 50c. at J. J. Wood & Son's drug store.

Cleveland Recruits In Trouble.
Denver, July 3.—A party of recruits from Cleveland, O., en route to the Philippines, started a fight in the railroad yards here with a number of railroad men. One soldier had three ribs broken and several others received severe wounds. Two of the soldiers, J. J. Posey and J. H. Masterson, were arrested.

A Horrible Accident.
Toledo, July 3.—A gasoline explosion in the Zieck residence wrecked the building, killed Mela, a daughter, 14, fatally injured Wehah, a son, and injured the mother, Mary. The daughter poured gasoline instead of coal oil into the stove to start the fire.

The farmers are busy cutting wheat and say the crop will average about one-half. Several threshers left the past few days for Mason County.

A hearty appetite does not always indicate a healthy condition. It is not the quantity of food which is eaten but the quantity which is assimilated, which determines the value of the food consumed. If the stomach and organs of digestion and nutrition cannot convert the food into nourishment, and into blood, then the food is an injury instead of a benefit. For all disorders of the stomach and its allied organs of digestion and nutrition, there is a certain remedy in Dr. Pierce's Golden Medical Discovery. It removes clogging obstructions. It strengthens the stomach, nourishes the nerves, enriches the blood and builds up the body. It is a flesh forming, muscle making preparation, making firm flesh instead of flabby fat. "Golden Medical Discovery" contains no alcohol, whisky or intoxicant of any kind, and is equally free from opium, cocaine and all narcotics.

CINCINNATI TOBACCO MARKET.

It Was Quite Steady the Past Week—Some Dissatisfaction Over the Price of the Better Grades.

Rejections year to date	8,232
Actual sales year to date	34,048
Receipts year to date	35,116

The Cincinnati Leaf Tobacco Warehouse Company in a circular for the week has the following:

"The better distribution of sales of the different days the past week has clearly demonstrated the advantage of having the market divided into the four days, as it remains more steady and prices do not fluctuate nearly so much. The extra large offerings on one day breaks the market and it always requires some time for it to become regulated again. Therefore it is largely to the shippers' interests to divide their sales, commencing on Tuesday and finishing on Friday."

"The market has been quite steady, prices for the low and medium grades have continued fairly strong, with some improvement on the better grades, but many of the sellers still believe the best grades should sell higher, as the difference between the lower and the better grades is not proportionate. It is a great question if the better grades will ever sell as satisfactorily as the inferior part of the crop. The demand for low grades continues and the competition keeps the prices firm, as the purchase for foreign export will probably be sufficient to uphold the competition on all grades below No. 8. Some of the large manufacturers have not been very liberal buyers so far, as they generally wait until the tobacco is in perfect order. It may be that when they do enter the market prices may do some better on the better grades."

"The receipts have been quite liberal, as the dealers are pricing rapidly and getting their tobacco into the market, the season being quite favorable for handling."

"The reports from the country are encouraging for a moderate crop, although there is some complaint in regard to grasshoppers doing some damage, but when the season winds up we generally have a good yield, especially when it has the start it now has."

The meetings on these beautiful grounds will be held beginning July 27th closing August 6th. Eminent divines will be present. Rev. W. B. Collins, D. D., of Louisville, Ky., and Rev. D. H. Moore, D. D., of L. L. D., Editor Western Christian Advocate, Cincinnati, Ohio, will preach on the Sundays, and the ministers of the Ashland and Covington districts will also be present. Splendid singing in charge of a competent leader will be a feature. A splendid addition has been made to the hotel, giving ample accommodation to all. The promenade grounds have been extended, a new stable built and many other improvements made. The grounds are beautiful, and, best of all, there is an abundance of pure water—two large cisterns, three wells, one of which is 150 feet deep, the water of which we have had analyzed, and it contains the following medicinal properties: Total solids, 3.6 to the liter; soluble salts, 3.16 to the liter; consisting of chlorides and sulphates of magnesium, sodium and potassium; insoluble salts, 0.44 to the liter; consisting of calcium carbonates with traces of iron.
The meetings will be in charge of Revs. G. R. Frenger and J. G. Dover, Presiding Elders of the Covington and Ashland Districts.
